

# WE DESIGN SAILING YACHTS THAT ENABLE OUR BOATBUILDERS TO SUCCEED

## Sailboats and J&J design

**J&J Design** office and **Seaway** design, engineer and tool sailing yachts that are at the forefront of design and technology. Our yachts are easy to manufacture and sell resulting in increased market and profits for our clients - beyond their expectations. We have a unique pedigree of succesful top-sellers in the production sailboat field (see [List of Designs](#)) for world's largest sailboat builders. In the past years we created more yachts produced worldwide than any other design office. This puts us, arguably, in the leading position of the sailboat production design, engineering and tooling globally.

Product development is critical in order to be able to cope with the vigorous industrialization and professionalization process boatbuilding is undergoing currently. Field is dominated by an ever-higher level of professionalism which in many areas comes close to automotive industry standards. This leads to an extremely complex and sophisticated development proces.

Year	No. Name	Sail/ Power	Builder	Country	Length (m)	Remarks	
<b>2011</b>	238 <b>Prestige XY</b>	P	Prestige	F	TBD	With Jeanneau, JFDP and Garr
